

SDI Review Form 1.6

PART 1:

Journal Name:	British Microbiology Research Journal
Manuscript Number:	MS: 2012/BMRJ/2896
Title of the Manuscript:	Biodiversity and enterotoxigenic potential of staphylococci isolated from raw and spontaneously fermented camel milk.

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript investigates the presence of CNS and CPS from raw and fermented camel milk. A large number of strains were identified and further characterized for their pathogenic potential. The manuscript is well-written, the experimental set up is clear and straightforward, and the results clearly presented and supportive to the conclusions.	
<u>Minor</u> REVISION comments	Some minor mistakes have to be corrected: Page 4, isolatesisolates. Page 8, please write the word species in italics. Page 8, the authors should report the very recent publication of Ruaro et al. 2013 "Biodiversity and characterization of indigenous coagulase-negative staphylococci isolated from raw milk and cheese of North Italy. Food Microbiol., 34, 106-111.	
<u>Optional/General</u> comments	Addition of line numbers can facilitate the revision process.	

Note: Anonymous Reviewer
