SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	Materials and Methods: Although the method described for Salmonella detection is a standardized technique, a cited references here would be better. Just to give the reader that this methods has been applied elsewhere successfully. The author should use proper temperature symbol rather than (0) zero. References: According to journal style, all cited references within the text should be numbered according to their first appearance. These numbers should match the same reference in the References list. Please prepare your cited references according to the journal specification and style	Thanks for the observations; I have cited the relevant reference. The correct temperature symbol has also been inserted .All references have been adjusted according to the journal specification and style.
Minor REVISION comments		
Optional/General comments
