| <p>Though authors have corrected the MS, still there are a few errors and should strictly be removed before publishing the manuscript:</p> <ol style="list-style-type: none"><li>1. Page 19, line 454- page nos not written.</li><li>2. Page 7, line 185- reference of Bezares et al. [27] is given, but not mentioned in citation list.</li><li>3. Authors should read the ‘Authors guidelines’ of the journal to write the Results &amp; Discussion part and should write accordingly. For ease of authors the same is given below. The guidelines should not be bypassed in any case.</li></ol> <p><b>Results &amp; Discussion (From Home page of BMRJ)</b></p> <p>Results should be clearly described in a concise manner. Results for different parameters should be described under subheadings or in separate paragraph. Table or figure numbers should be mentioned in parentheses for better understanding.</p> <p>The discussion should not repeat the results, but provide detailed interpretation of data. This should interpret the significance of the findings of the work. Citations should be given in support of the findings. The results and discussion part can also be described as separate, if appropriate.</p> | <p><b>No action was taken:</b> - Action was already taken in Version2.
