Subject: Re: Request for editorial decision for manuscript number 2014_BMRJ_9711

After checking the manuscript, I found some errors, which are listed below. Please ask the authors for further corrections and they should ask a native English speaker or specialist to check carefully the whole manuscript.

1. Abstract

The first line: "Aim: The aims of this study were ..."

2. 2.2 Patients and Specimens

The first and second paragraphs: "to sign" should be "to sign".

3. 2.4.1. Presumptive isolation of Salmonella

First line of the second paragraph, delete "prepared and dried"

4. Page 6, the last sentence of the first paragraph: "drugs namely; ampicillin (25μ), chloramphenicol (30μ), ciprofloxacin (25μ), nalidixic acid (30μ) and Trimethoprim-sulfamethoxazole (30μ) [39]." Delete "namely;". Please check the units of antibiotics: what is the meaning of "μ"? it should be "μg" or "u".

5. Page 6, the second paragraph: What is the meaning of "...plates were air dried"? I guess it refers to "air dried under aseptic condition to eliminate the liquid on the surface of medium"
