Subject: Re: Sub: Request for final decision for manuscript number 2013_BMRJ_5622

I'm getting more and more confused. Please find below my response on November 1.

I have also attached the revised (second time!) version. And I have done it again here. To me it is unbelievable that the authors cannot get even the title right! Once for all, please REQUEST that the authors submit this version. Otherwise I have to reject the paper.

Disappointingly, the authors have not followed my instructions. Although some changes have been made, quite a few of them have not been included. Just as some examples:

Line 8: "community-acquire" should be "community-acquired"

Line 162: The figure legend has not been revised at all

And there are plenty of other things to revise, for instance the inconsistency of spelling beta-lactamase and b-lactamase (see also in the title). Please follow the highlights in my revision, again attached here.

If the authors do not bother/agree to the essential changes, I have no other possibility than to reject the manuscript.
