

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Microbiology Research Journal
Manuscript Number:	2014_BMRJ_11658
Title of the Manuscript:	Seroprevalence of Anti-human Metapneumovirus Antibodies in Hospitalized Children in Suleimani City/Iraq

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1) There were small mistakes. a) Materials & Methods 1 st paragraph: ...rather than RTI sone hundred... b) Figure 1C legend: The cell show cytoplasmic fluorescence after ??? 2) I could not understand Figure 3. The paragraph "Positive IgG anti-hMPV antibodies ... (Figure 3). The results of IgG..... (Figure 4) " explains Figure 4 in this revised manuscript. 3) What was the definition of HMPV infections related to Figure 5? IgM positive?
