

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Microbiology Research Journal
Manuscript Number:	Ms_BMRJ_19581
Title of the Manuscript:	Phytochemical and Antibacterial Investigation of Leaf Extracts of Vernonia Amygdalina
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The authors have added adequate statistical treatment regarding the inhibition effects of <i>Vernonia amygdalina</i> extract on selected bacteria. I have only a few formal comments which can be corrected prior to the publication: Line 16: Replace a position of a comma in the sentence "it has, however, been observed that..." Line 78: Insert a space between a number and a corresponding unit in "1 ml" Line 112: Insert a space between a number and a corresponding unit in "60 ml" Line 113: Insert a space between a number and a corresponding unit in "6 mm" Line 115: Use an abbreviation "h" instead of "hr" for "hour" Line 163: Use the verb form "exhibits" instead of "exhibit" in the sentence "Saponin has detergent properties and exhibits anti-inflammatory properties..." Line 187: Insert "a" before the words "significant difference", i.e., "a significant difference"	All the comments by the final evaluator had been noted and necessary corrections had been effected. The corrected portions had been highlighted in yellow colour.
