

## SDI Review Form 1.6

|                          |                                                                                                                                                                      |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">British Microbiology Research Journal</a>                                                                                                                |
| Manuscript Number:       | Ms_BMRJ_20228                                                                                                                                                        |
| Title of the Manuscript: | Microbiological quality of laboratories works stations: impact of a system of saturated dry spray steam<br>Running title. Laboratory safety and system of sanitation |
| Type of the Article      |                                                                                                                                                                      |

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

### **PART 1: Review Comments**

|                                            | Reviewer's comment                                                                                                                                       | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments | <b>Please inform the detail of System that use for spraying, ie. droplet size or flow rate etc.</b>                                                      | All the corrections have been done                                                                                                                                            |
| <b><u>Minor</u></b> REVISION comments      | 1. Please rewrite about the Table in Text, change from Table II Table III to be Table 2 Table 3<br>2. Please check the format for writing the reference. |                                                                                                                                                                               |
| <b><u>Optional/General</u></b> comments    | Please cite the reference at the text for the standard method.                                                                                           |                                                                                                                                                                               |
