PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
According to the journal guidelines we dont' write introduction in abstract but we write aim that should be brief. Thus authors still should modify the abstract as it's indicated by the journal. I invite authors to see some articles published by the same journal to know the way of presenting the abstract. We start citations by number 1 then 2... in the whole manuscript. What do authors mean by "R-pasmidsd" in the last paragraph of discussion? In the reference number 7, remove "of" and dots from the name of the journal "Euro .J. of Exp. Bio" In the reference number 13, write the name of the journal "African Journal of Biotechnology" in abbreviation. The same thing for the reference number 16 (and remove pp and replace it by :). Reference number 15 is incomplete.
