

SDI Review Form 1.6

Journal Name:	British Microbiology Research Journal
Manuscript Number:	2015_BMRJ_18071
Title of the Manuscript:	Diversity of Rotavirus VP7 and VP4 Genotypes Associated with Severe Childhood Diarrhea in North West Cameroon: Detection of Unusual strains G1P[6], G2P[6], G2P[8] and G3P[6]
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Materials and methods section Studied population should be described in detail. The period of the study should be stated together the characterisation of the population : number of children hospitalized, number of out patients, sex ratio, age groups, name of the districts and health units participating . Criteria for inclusion in the study. Methods used to determine the electropherotype are not cited in this section but you present results. Please add. Results and discussion As a general comment, present all data in the following format "51/56 (96.4%)". It is not clear in the text whether the results and statistics presented are for hospitalized or out patients and if the 56 strains are the total number of rota positives by EIA or a selection. If a selection please detail how the selection was performed. Line 111-117 : the phrase should be separate into two, one phrase presenting the odds for the age group distribution and a second one stating the sex distribution with statistical analysis results included. L130, L162-164, L181-183 : add numbers, statistical analysis if any.	

SDI Review Form 1.6

	L128-137: Please add numbers and statistical for the monthly distribution to sustain your statements.	
Minor REVISION comments		
Optional/General comments
