

SDI Review Form 1.6

Journal Name:	British Microbiology Research Journal
Manuscript Number:	Ms_BMRJ_20439
Title of the Manuscript:	Recent advances in virus-host coevolution and protective mechanisms against plant viruses
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The present work represents an excellent review in research area of virus-host coevolution and protective mechanism against plant viruses. This study clearly shows a clear introduction, plant virus infection, genetic evolution of plant viruses, plant defense, cross-protection, engineering resistance, and conclusions. I should mention that it was a pleasure to read and review this work. I learn quite a lot and will help me with my research work on plant viruses of some Mexican crops.
