PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The reviewer believes the finding that <i>C. cassicola</i> infected all the 24 rubber clones tested is important information. Minor suggestions: line 105:...its pathogenicity, it makes... could be revised to read: its pathogenicity, and it makes rubber clones become more... Line 180: Variation to variation	
<u>Optional/General</u> comments	The mss. was very “clean” except for above suggestions.
