

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Microbiology Research Journal
Manuscript Number:	2014_BMRJ_15275
Title of the Manuscript:	Potentiality of Marine Streptomyces sp. AIAH-10 against Ciprofloxacin and Azithromycin Induced Resistant Escherichia coli
Type of the Article	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors have improved upon the writing of the manuscript but it still needs considerable work before it can be accepted for publication. The English is very incomprehensible with serious grammatical and language flaws. Authors must seek the assistance of a native speaker to aid in this work. Besides these, the writing has been improved beyond the initial submission. I have marked the word document to aid the authors see the places that need correction and clarifications. The Editor should check these language shortfalls before forwarding the manuscripts for review. I need not see this paper again. The rest is basically language-based and the editor must check these before accepting the manuscript to save the integrity of the journal	

Reviewer Details:

Name:	John Osei Sekyere
Department, University & Country	Pharmacy Department, University Of Kwazulu-Natal, South Africa
