

SDI Review Form 1.6

PART 1:

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	MS: 2012/EJMP/1987
Title of the Manuscript:	Antioxidative Action of Citrus limonum Essential Oil In Vitro and In Vivo on Humane Skin.

General guideline: Reviewers are requested to follow these guidelines during review: *(Note: Title of different sections as proposed below may differ in case of review paper / case reports)*

- Introduction *(Is the problem/objective of this study original, important and well defined?)*
- Materials & methods *(Kindly comment on the suitability of the methods. Sufficient details of the methods should be provided to allow peers to evaluate and/or replicate the work)*
- Results & discussion *(Kindly comment on: 1. Are the data well controlled and robust? 2. Authors should provide relevant references during discussion. 3. Discussion and conclusions should be based on actual facts and figures. Biased claims should be pointed out. 4. Are statistical analyses must for this paper? If yes, have sufficient and appropriate statistical analyses been carried out?)*
- Conclusion *(Is the conclusion supported by the data, discussed inside the manuscript? Conclusions should not be biased and should be based on the data, presented inside the manuscript only)*
- Are all the references cited relevant, adequate? Are there any other suitable current references authors need to cite?
- This form has total 10 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part and write here 'Corrected'/ if not agreed, give suitable justifications)
<u>COMPULSORY REVISION</u> comments		
<u>Minor</u> REVISION comments	<p>The work is good for publishing with minimal revision.</p> <p>The protocol of the conclusions can not be assumed.</p> <p>A possible protocol could be: face cleaning with a non-alcoholic detergent, face peeling (salicylic acid and glycolic acid), washing to neutralise acid treatment, face wiping, application of lemon essential oil diluted 1:10 in grape-seed oil. Preliminary tests suggest a frequency of one application every seven days, for five applications and then once every fourteen for another five application.</p>	
<u>Optional</u> comments
