

Editorial Comments:

Before publishing MS on EJMP, I would suggest to slightly modify the title as follows:

Screening for Biological Activities of Medicinal Plants Used in Traditional Arabic Palestinian Herbal Medicine

Furthermore, dermatophyte species should be reported in the Mat Met.

Author's Feedback:

Attached, please find our corrected revised manuscript. We have made the corrections following the Editor's suggestions: the title was changed slightly, and the names of the dermatophyte species were reported in the Mat Met.
