**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Plant part should be mentioned in the title, aim and other sections.</li> <li>2. The abstract is not informative enough. E.g., no mention of the haematological parameters measured and result not presented statistically.</li> <li>3. In extraction, the exact time for boiling should be stated.</li> <li>4. How long was the liver stored before histological analysis?</li> <li>5. Photomicrographs not clear. Arrows should be used to label areas of information. From the photomicrographs, 300mg/kg did not show significant protection as reported.</li> <li>6. Author should be disciplined in presentation. E.g, result section should contain only results and not discussion.</li> </ol> <p>If there is any Ethical Issue please clarify us.</p>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Many grammatical and typographical errors should be corrected.</li> <li>2. Full meaning of some abbreviations should be supplied.</li> </ol>	
<b>Optional/General</b> comments	Design error observed. E.g. doses are too far apart. 300 and 900mg/kg. Most effective dose may lie in between.
