SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	In part 2.6 Statistical analysis, the independent variables should also include condom use (according to Table 4 & 5). This paper is well written and also highlights the importance issues in sexual and reproductive health especially enough information was not provided to STI treated patients that is important for prevention of transmission of sexually transmitted diseases. This paper should be published.	Modified. Page 3, Line 109.
