

SDI Review Form 1.6

PART 1:

Journal Name:	<u>International Journal of Biochemistry Research & Review</u>
Manuscript Number:	2013_IJBcRR_5043
Title of the Manuscript:	Evaluation of the Anti-diabetic and Antioxidant activities of aqueous leaf extracts of Morinda lucida and Saccharum officinarum in alloxan-induced diabetic rats
Type of the Article	Research paper

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Line 91- did use twenty or thirty albino mice? Line 93- indicate the route of administration of the plant extract for the toxicity study. Why did you use only a single dosage instead of a range of doses for the toxicity study?	The comments made by the Reviewers were helpful and essential to the integrity of this research findings. I have made the necessary corrections as regards the Reviewer's comments. We actually used a range of doses for the acute toxicity study but it was an error on our part to have omitted such important detail.
<u>Minor</u> REVISION comments		I have made a little adjustment to the title which now reads 'evaluation of the anti-diabetic and antioxidant activities of aqueous extracts of <i>Morinda lucida</i> and <i>Saccharum officinarum</i> leaves in alloxan-induced diabetic rats.
<u>Optional/General</u> comments	A good research and finding worthy of publication
