

SDI Review Form 1.6

PART 1:

Journal Name:	<u>International Journal of Biochemistry Research & Review</u>
Manuscript Number:	2013_IJBcRR_4251
Title of the Manuscript:	Cardiac Tolerance Study of the Ethyl Acetate Fraction of Morinda morindoides (Baker) Milne-Redhead (Rubiaceae) Extract in Rabbit
Type of the Article	Research paper

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Introduction and discussion is patchy. It has too many small paragraphs. This information should be combined into 2-3 paragraphs. Some of the statements throughout the manuscript are elementary. This information should be more detailed. Authors studied only biochemical parameters in the blood and did not study functional parameters such as ECG and blood pressure. Including data on ECG and blood pressure would strengthen the manuscript. I recommend that manuscript should be edited by a native English speaker. There are several sentences that needs help. For example, line 207 ".....temperature of 50°C below the melting point...." Is technically incorrect. It is essential to point out what is the significance of each and every parameters studied and what is normal range for these parameters in rabbit.	We have corrected our research article by following most of your comment.
<u>Minor</u> REVISION comments	Line 112, ethanol 96% should be 96% ethanol. Line 160, centrifugation speed should be expressed in "g" and not in "rpm". Please provide centrifugation speed in "g".	

SDI Review Form 1.6

	How much blood was collected each time?	
<u>Optional/General</u> comments
