

SDI Review Form 1.6

PART 1:

Journal Name:	<u>International Journal of Biochemistry Research & Review</u>
Manuscript Number:	2013_IJBcRR_4464
Title of the Manuscript:	Glutathione S-Transferase enzyme (GSTT1 and GSTM1) Gene Polymorphisms in End Stage Renal Disease among Egyptian Population
Type of the Article	Research paper

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. The methodology for the analysis of the deletion polymorphism of <i>GSTT1</i> and <i>GSTM1</i> is well established, the figure 1 is not necessary. 2. The nomenclature of <i>GSTT1</i> and <i>GSTM1</i> must be in italics. 3. The average age is not a clinical characteristic, so this information should not be in Table 1. Remove this information of the table and transfer this information to the text. 4. There is an error in Figure 2. Where is GSTMM1 change for <i>GSTM1</i>. 5. The Figures 2, 3 and 4 are not necessary, such information could be in the text 6. The Table 4 presents confusing because there are many information. It could be formatted differently and more clearly explained.	

SDI Review Form 1.6

<u>Optional/General</u> comments	Publish with Minor REVISION. Although there appears to have ethical problems, was not referred to in paper approval of the Ethics Committee. Therefore, include this information.
