| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                             |
| <b><u>Minor</u></b> REVISION comments      | <ol style="list-style-type: none"> <li>1. Abstract: There was no short methods in abstract ( Number of subjects, short methods of parameters, etc)</li> <li>2. Manuscript title is not reflect manuscript content. Authors are evaluated the oxidative status of ESRD patients and its association with GSTT1 and GSTM1 gene polymorphisms in the Egyptian ESRD population. So it should be better to change manuscript title</li> <li>3. The numbers should be standarised after comma. <math>9.74 \pm 1.87</math> or <math>5.2 \pm 0.85</math></li> <li>4. There is either tables or figures for parameters. One of them should be chosen.</li> <li>5. Ethical consent required. So it should be added in manuscript</li> </ol> | <ol style="list-style-type: none"> <li>1. Done.</li> <li>2. Done.</li> <li>3. Done.</li> <li>4. Unnecessary figures were deleted.</li> <li>5. Done.</li> </ol>                              |
