

SDI Review Form 1.6

PART 1:

Journal Name:	<u>International Journal of Biochemistry Research & Review</u>
Manuscript Number:	2013_IJBcRR_5105
Title of the Manuscript:	Role of Human Beta Defensin -2 and Oxidative Stress Parameters in Ovarian Cancer Patients
Type of the Article	Research paper

General guideline for Peer Review process is available in this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

- This form has total 7 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	I am very impressed with the authors' hypothesis and goal of this study. Unfortunately, at the present conditions in my judgment, this manuscript has several key weaknesses. Consequently, validating authors' observations and significance is difficult without addressing some of the following issues: Literature search also very weak and often does not make any sense. I strongly recommend pubmed.com search by using key words. For example recent excellent paper should be part of this manuscript : Link between Cancer and Alzheimer Disease via Oxidative Stress Induced by Nitric Oxide-Dependent Mitochondrial DNA Overproliferation and Deletion. Aliev G, Obrenovich ME, Tabrez S, Jabir NR, Reddy VP, Li Y, Burnstock G, Cacabelos R, Kamal MA. Oxid Med Cell Longev. 2013;2013:962984. doi: 10.1155/2013/962984. Epub 2013 Apr 3. PMID: 23691268 [PubMed - in process] Free PMC Article	Literature search has been changed with updated references from pubmed.com and other websites.
