Subject: Re: Request for final decision for manuscript number 2013_IJBcRR_7201

The revised manuscript may be accepted after correcting the following. The corrections may be done either by the author (if so, a final minor revision is to be required) or by the Editorial staff (if possible).

Corrections to be made (lines are given in brackets):

Italics should be used for all Latin names (especially for the title plant); please correct this throughout the manuscript - from the Title through sec. 4 and up to within the References list!

(91-93) The text (lines 91-93), which is fully repeated further (lines 512-514, which represent a necessary section), should be deleted.

(98) Grou (correct: Group)

(343-344) Refs. [55] and [56] are given after Ref. [38] (note that Ref. [55] is also repeated later (line 478)). As all new references should be numbered consecutively throughout the manuscript, the numbering should be rearranged accordingly.

After Ref. [42] (line 368), Ref. [45] is cited (line 371). Please check if the latter citing is a misprint (instead of [43]), as the Ref. numbering order later starts from [44] (see line 410); otherwise ensure that Ref. [43] is either cited or deleted.

(439) as it (correct: as is).

(465-466) approximated to the value (correct: approximated the value).

(480) standartization (correct: standardization).

In addition to my "Final decision" sent just before this message, I would recommend that THE AUTHOR should make a further minor revision with the necessary corrections, as she has to check the correct referencing and numbering and rearrange it properly.
