- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

SDI Review Form 1.6

PART 2: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Study is loosely designed , it simply compared the urinary excretion of GAGs in stone patient & healthy volunteers, There should be a standard treatment group in which GAGs can be given externally in stone patient, than only inhibitory effect of GAGs can be determined.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	There is nothing mentioned about the patient consent and human ethical committee permission for the study.	

Note: Anonymous Reviewer
