PART 2: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	A number of citations were found in the text that is not referenced in the list. Last paragraph of discussion is actually the conclusion. Because albino rats were used a heading of the ethical issues should be included under materials and Methods.	
<u>Minor</u> REVISION comments	Grammar needs serious attention. But otherwise a sound manuscript.	
<u>Optional/General</u> comments
