

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	2014_IJBcRR_11350
Title of the Manuscript:	GC-MS Analysis of Phytocompounds of Leaf and Stem of Marsilea quadrifolia
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	1. The crude extracts of Marsilea quadrifolia leaf and stem could be a new source of development for plant-based therapy for diseases in the future. 2. Further study is needed to identify the major bioactive compounds responsible for managing or preventing diseases at molecular, cellular, and systemic levels. 3. In the material and methods section, author should provide the references (if possible) which are used in this study.	Thank you very much for your valuable comments regarding this research work. Certainly, the stem and leaf of <i>M. quadrifolia</i> would be useful in the plant based therapy for curing diseases in future. Yes, we agree this point. Definitely further study is in need for identification of major bioactive compounds in <i>M. quadrifolia</i> and also find out which compound is responsible for preventing diseases with exact mechanisms at molecular, cellular and systemic levels. Now, we provided the references in the materials and methods section in appropriate places as per your suggestion.
