

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	2014_IJBcRR_14439
Title of the Manuscript:	Optimization of Starch and Tryptone Concentrations in Medium Composition for Lipase Production by Submerged Fermentation of Rhizopus arrhizus Using Response Surface Methodology
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (<i>if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i>)
<u>Compulsory</u> REVISION comments	Manuscript has been written nicely and can be accepted for the publication with some modifications. <i>R. arrhizus</i> has widely been used for the production of lipase. Is the Lipase production by <i>R. arrhizus</i> in the present study is higher as compared to previous reported data? If yes, one table can be included showing the comparative production levels of lipase obtained using this microorganism using submerged fermentation with reference to the present study.	We accept your recommendation and a table was included.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
