

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	2013_IJBcRR_7140
Title of the Manuscript:	Histology of the Gonads and Liver of Oreochromis niloticus (L) fed Crude Extract of Azadirachta indica Leaf
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The text in this article has a clear idea of your goal and the results are described . However , the images of histological sections are bad resolution , hindering the observation of the results and possible conclusions . Furthermore , errors in the form of description of scale figures are wrong and need to be revised .	Images with bad resolutions has been enhanced and errors in the scale has been reversed.
Minor REVISION comments	Lines: 4, use "histopathological"; It is not "crude"extract and yes organic extraction. Line 115: formalin is 38% of formaldehyde solution. Line 137, 148,161: There was no direct description between the text and the figures of the plate.	Line four which is the title has been changed to read Histopathological changes in Gonads and Livers of <i>Oreochromis niloticus</i> (L) fed Extract of <i>Azadirachta indica</i> Leaf. "Changes in" was added to make it a complete sentence. Line 115: 10% of formalin is corrected, kindly refer to the author whose method was used. The whole sentence in lines; 137-145, 148-158 and 161-171 has been paraphrased to bring out the description expected.
Optional/General comments
