

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	2014_IJBcRR_9962
Title of the Manuscript:	Biochemical changes induced by natural infection of trypanosomosis in Burkinabese local breeds of small ruminants
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract is properly written and concise. It highlights the objective of the study and conclusions are drawn. Introduction: is appropriate. Materials and methods: in sampling line 78 age is to be mentioned in days/months or years ? so authors should mention the units. Under Biochemical analysis line 92 first sentences is not clear as indicated in the text (see the attached manuscript). Certain statements are not clear. Clarify and rewrite.(as indicated in the text). Results: Line 133-134: Biochemical parameter values of the Burkinabese small ruminants' breeds were within the range of the standard values found in sheep and goats elsewhere (here a reference is required). Discussion:After line 236 insert the reference 46 and 47 to support the statement as given as under: [46] Aulakh GS, Singla LD, Singh J. Bovine trypanosomosis due to <i>Trypanosoma evansi</i>: clinical, haematobiochemical and therapeutic studies. In: New Horizons in Animal Sciences, Solti RC and Sharma VL (eds). Vishal Publishing and Co., Jalandhar, 2005. pp 137-144. [47] Singla LD, Juyal PD, Ahuja SP. Serum protein changes of cross-bred calves experimentally infected with <i>Trypanosoma evansi</i> and immuno-modulated with levamisole. <i>Indian Vet J.</i> 2000; 77: 172-174. Please also see the attached corrected manuscript along with comments. Other	years is added in line 78 “concerned with” is replaced by “determined levels for” We added references that were food note of the table 2. The additional references are added, the authors are very grateful to the reviewer for providing these invaluable

SDI Review Form 1.6

	similar latest references can also be added. Similar after line 244 to support the statement add the following [48] and /or other latest related references: [48] Singla LD, Juyal PD. Immunomodulatory effects of levamisole against <i>Trypanosoma evansi</i> infection in cow-calves: serum gamma-globulins. <i>J. Vet. Parasitol.</i> 1992; 6(2): 9-14.	references. The additional reference is added
Minor REVISION comments	Few references have been added in the manuscript which are required to be added. Such more references may be added to strengthen the quality of manuscript	
Optional/General comments	In discussion latest references may be added where ever possible
