

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	2013_IJBcRR_6341
Title of the Manuscript:	Effect of Subchronic Exposure of Heavy metal Pollution on Soil Physicochemical Properties, Catalase and Dehydrogenase Activities.
Type of the Article	Research Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	This manuscript presents data on impacts of the characteristics of soil under three heavy metal treatments. The physicochemical properties had not significance for effect of heavy metal, and there were not valuable analyses in RESULTS part. In Table 2, How can addition of one heavy metal influence the concentration of other heavy metals? There were several serious mistakes and deficiency in this paper.
