

Editor's Comment:

I have checked the latest revised version and found that the authors were negligent in correcting many of their misprints. If you wish to make the IJBcRR be a source of correct information; we should urge authors to be correct.

Here are my comments which should be conveyed to the authors exactly as below.

Only when the authors fulfill all requested amendments APPROPRIATELY, the paper might be finally accepted.

Additional corrections to be made:

(Line 285, again) rat (correct: mouse)

(Line 149) mgCO₃ (correct: Mg...)

(Line 151) volumetric (correct: volumetric)

(Line 316) For "tannic acid equivalent, why "TEA" but not "TAE"? Correct as appropriate throughout the whole text!

(Ref. [9], again): in the paper title change "and" to "as"!

(Ref. 12) Medcinal (correct: Medicinal)

(Ref. 13, line 527) phenoilic (correct: phenolic)

(Ref. 20, several misprints):

The 1st author is not "Van-Burden TP" but Van Buren JP.

The 2nd author's initials are not "WC" but WB.

Not "tannin" but "tannic".

The CORRECT ref. is NOT "1981; 1:77" but 1969, 17: 772-777.

(Ref. 26)

Not "sulphydryl" but "sulfhydryl".

Page numbers: not 70-72 but 70-77.

Etc., etc.... (This is definitely not all...)

(PLEASE USE "scholar.google.com" and similar database/search browsers to check ALL your references!)
