

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBcRR_18760
Title of the Manuscript:	Distribution of Metabolites and Antioxidant Activity in the Berry and Shoot of Solanum pseudocapsicum Grown in Nigeria
Type of the Article	Original research paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	- In the Introduction, the author didn't discuss the growth conditions of plant samples. - In the Methods the author didn't mentioned the amount of berry and shoots collected from the plant. - The result in Figure 1 shows that the percentage of DPPH scavenging increased with time. The author needs to increase the extract concentrations to achieve steady state.	This has been addressed. This has been mentioned in the revision. The percentage DPPH scavenging increased with the extract concentration, and not with time. The The IC₅₀ value reported is more scientifically valuable information than the extract concentration that would achieve a steady state.
<u>Minor</u> REVISION comments	- The words Table 1 or 2 or 3 in the sentences, the first letter for T should be used capital letter.	This has been corrected.
<u>Optional/General</u> comments	-
