

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBcRR_19629
Title of the Manuscript:	Immunomodulatory Effect of aqueous and ethanolic crude extracts of stem bark from Trichilia emetica (MELIACEAE) on rats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The scientific data is poor to prove immunomodulatory activity of the plant. The manuscript should be re write according to general basic principle such as extract preparation shouldn't include discussion part . The ethical approval number should be added both for plant and animals study. The authors why they do not analyse spleen cells or at least perform spleenocyte proliferation assay .	Thank you, the aim of this study was to see the immunomodulatory effect of aqueous and ethanol extracts on TCD4 ⁺ cells and some blood parameters. Also the ethical approval number is added to the manuscript just afterwards the conclusion
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
