

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_18855
Title of the Manuscript:	COMPARATIVE EFFECTS OF KEROSENE AND DIESEL ON ION REGULATORY CHARACTERISTICS IN TYMPANOTONUS FUSCATUS AFTER SUBCHRONIC EXPOSURE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors need to review the recommendations and suggestions highlighted in the article (in coloured)	The review has been taken into consideration as suggested by the reviewer. To give full details as requested in line 115 and 116 may take more than a page for the three parameters (Sodium, Potassium and Chloride ions). Lines 180-199 was introduced in the discussion for non chemistry and biochemistry readers who may be interested in pollution and toxicology. If it is removed may not give an overview of the implication of these parameters on aquatic species. They may not actually discuss the work but give insight to the general importance of electrolytes / ion regulators.
Minor REVISION comments		
Optional/General comments
