SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Reconstruct the line-10 In discussion 165-68 the reference is what way connected to core study? Mention the metabolites you found in your study in conclusion Remove the word "showed" in conclusion and add revealed or indicated like that instead of showed Perform grammar check through out the manuscript Plagiarism issue: antimicrobial/antiviral action, and in the inhibition of growth of tumor Existing and starches). Sugars and starches have the primary role	
<u>Minor</u> REVISION comments	In methodology the extraction step is very short. Generally atleast 48 hrs the extract was kept in shaker but how you do for an hour. I think this is not enough for extracting effectively. If the extract is hot decoction then all the compounds elute fast....	
<u>Optional/General</u> comments
