SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Aims- this indicates more than one aims. This should be refined.</p> <p>Presentation of case- the acronym EAC should be defined preferably in the Introduction or Background before it is used here.</p> <p>Generally, this paper needs editorial assistance to make it better readable for the Journal.</p>	
Minor REVISION comments	<p>Abstract</p> <p>Discussion- Once EAC is defined, only the relevant acronym need be used.</p> <p>Page 1 Lines 34-35 It is better to mention causes, then risk factors as they are not the same.</p> <p>Page 2</p> <p>Lines 62-63road accident 30days before.the woman was referred to</p> <p>Line 70 What form of zygoma fracture? There is need to clarify what is meant by 'breadth reduction' of EAC. Is that the standard dimension for determining fracture of the EAC?</p>	

SDI Review Form 1.6

	<p>Line 71 All figures mentioned should include what they refer to.</p> <p>Line 72 What approach was used to access the TMJ? As there was no mention of pre-operative ENT specialist consultation, how was the post-operative evaluation determined as 'considerable improvement.</p> <p>Lines 83-86 Why this repetition of details already presented? The available literature should be used to discuss your result (case presentation).</p> <p>Lines 87-09 Useful when related to the case presentation.</p> <p>Page 3 line 22. Since the approach to the TMJ was not mentioned in the presentation of the case, it is 'foreign matter' here.</p> <p>Generally, this paper needs editorial assistance to make it better readable for the Journal.</p>	
<u>Optional/General</u> comments
