

**SDI Review Form 1.6**

**PART 1:**

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	<b>MS: 2012/IJPSS/2334</b>
Title of the Manuscript:	<b>Determination of Mineralization Rate of Organic Materials Using Carbon Dioxide Evolution as an Index.</b>

**General guideline for Peer Review process is available in this link:**

**(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)**

- This form has total 9 parts. Kindly note that you should use all the parts of this review form.

**SDI Review Form 1.6**

**PART 2: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Compulsory</b> REVISION comments	The article provides interesting information but its purpose is not clearly defined. If the purpose is to replace inorganic fertilizers with these materials, as it seems in the introduction, then more attention should be paid on the amount of the nutrients provided, their forms etc. Otherwise the whole paper should be organized in a different way. So, in order the paper to be accepted for publication this essential issue should be clarified.	
<b>Minor</b> REVISION comments	See comments marked on the manuscript	
<b>Optional/General</b> comments		

**Reviewer Details:**
