

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	MS: 2012/IJPSS/2334
Title of the Manuscript:	Determination of Mineralization Rate of Organic Materials Using Carbon Dioxide Evolution as an Index.

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
In many places in the section of discussion, the O of CO ₂ was still numeric, which should be replaced with alphabet O. Authors persisted to use full terminology instead of abbreviations for KPH and PGB in the rest of manuscript although they mentioned abbreviations in abstract. In general, when abbreviations are mentioned in abstract for some terminology, authors use abbreviations in the rest of manuscript. That is why I recommend that authors use abbreviations for kola pod husk and Pacesetter Grade B in the rest of manuscript.
