PART 2: Review Comments

	Reviewer's comment	Author's comment (<i>if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here</i>)
Compulsory REVISION comments	Though this is an <i>in vitro</i> study and not completely original, to my opinion the manuscript deserves attention for publication on IJPSS. The experimental setup is well designed and results are convincing.	
Minor REVISION comments	Minor revisions are enclosed in the attached file. English should be slightly improved.	
Optional/General comments
