Title of the Manuscript:	INDIGENOUS BROWSE PLANTS USED FOR GOATS IN AKWA IBOM STATE, NIGERIA; THEIR PHYTOCHEMICAL, MINERAL, NUTRIENT AND ANTINUTRIENT CONTENTS.

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The minerals results needs to be revised, the reported data were corrected, however is required to report the mineral requirement of the animals to contrast with data from the plants analyzed, there seem to be levels below the requirement especially for S. mombin and M. fulvum	The reported data for minerals was corrected and they are the values obtained in the work. We have as suggested , included the statement that the obtained values in <i>S. mombin</i> and <i>M. fulvum</i> did not actually meet up with the mineral requirements for goats.
