Attached Part:

The final decision for manuscript number 2014IJPSS10730 entitled 'Genetic control for some traits using generation mean analysis in bread wheat (*Triticum aestivum* L.)' written by Naheif E.M. Mohamed

1. Following evaluation of all documents related to the manuscript I agree with Reviewers that the manuscript is acceptable for publishing in the International Journal of Plant and Soil Science. However, the text is prepared not according to the Journal requirement and must be corrected. The Author must arrange the text according to the Journal requirements. The 'Author's Instruction' is available at <http://www.sciencedomain.org/page.php?id=general-guideline-for-authors> I recommend using the MS word SDI paper template which can be downloaded from this webpage.
2. Abstract, line 23. [i] and [1] should be removed from this part of the text.
3. Table 2, 3, 4, 5, 6, 7, 8. All abbreviations must be explained bellow each table.
4. Fig 1&2 must be merged as Fig. 1A and B
5. Fig 3&4 must be merged as Fig. 2A and B
6. All abbreviations must be explained bellow each figure
7. CONCLUSION should be added
8. COMPETING INTERESTS should be added
9. Literature cited must be numbered.

My final decision is: Accept after arrangement the text according to the Journal requirements and after corrections listed.
