Subject: RE: Request for editorial decision for manuscript number 2014\_IJPSS\_12374

Find below my final decision about the manuscript 2014\_IJPSS\_12374:

It seems that the authors have made most of the modifications suggested by the referees. Therefore, the manuscript can be accepted for publication in IJPSS. After addressing the following points:

-Leave a space between number and unit. Check throughout the whole manuscript.

-The sentence "The present study gives an insight into a protective effect of the system with an increased production of proline and decreased protease activity, free amino acids and at the same time a higher protein content during later stages of germination for a particular concentration may be due to the synthesis of novel proteins as a defense mechanism indicating the dual role of metalaxyl" is too long and unclear, so re-writing is needed.

**Editor's Details:**

Prof. Susana Rodriguez-Couto

Unit of Environmental Engineering, Paseo Manuel Lardizabal, Donostia-San Sebastián, Spain
