

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	2015_IJPSS_16725
Title of the Manuscript:	Establishment of organogenesis protocol for genetic modification of 'yellow pitaya' Selenicereus megalanthus
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	<p>(1) Significance level in all figures and tables should be marked with *, **, or a, b, c</p> <p>(2) The new REFERENCES (previous five years) should be complemented.</p> <p>(3)</p>	Standard division already there.
<u>Minor</u> REVISION comments	<p>(1) what is the meaning of the basalt medium?</p> <p>(2) What is BAP?</p> <p>(3) All tables should be used "three-line table".</p>	Done
<u>Optional/General</u> comments	This present investigation found that the yellow pitaya successfully micropropagated through tissue culture technique using seeds as explant. The MS without phytormone and with 2mg/L BAP is suitable for establishment of the culture and for organogenesis, respectively.	Done
