

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	2015_IJPSS_17295
Title of the Manuscript:	Wheat and Grain Sorghum Yields as Influenced by Long-Term Tillage and Nitrogen Fertilizer Application
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	Ethical Issue: Yes. This study showed the effect of different tillage system, nitrogen rate and their effects on wheat and sorghum yield.	I do not understand what needs to be changed with this comment.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The manuscript contains valuable data on wheat and grain sorghum yields as influenced by long-term tillage and nitrogen fertilizer application at Kansas State University Agricultural Research Center-Hays. The graph and table are presented adequately, with an adequate statistical treatment and an adequate description in the text. Clear conclusions are stated.
