

Editor's Comment:

The final decision for manuscript number 2015 IJPSS 16249 entitled 'Effects of Fertilization Patterns using Mineral and Organic Fertilizers on Growth and Yield of Cucumber' later 'Effects of Fertilization Patterns using Mineral and Organic Fertilizers on Growth and Yield of Cucumber under Greenhouse' written by Mahmoud Rahil and Alia Qanadillo

Following evaluation of all documents related to the manuscript I agree with the Reviewers that the text is quite well written and the manuscript is acceptable for publishing in the International Journal of Plant and Soil Science. However, before publishing, one minor correction must be made by the Authors. According to the Journal requirements, references must be numbered in the text and listed at the end of the manuscript in order they appear in the text; not alphabetically.

My decision is: Accept after minor revision
