

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	2015_IJPSS_17295
Title of the Manuscript:	<b>Wheat and Grain Sorghum Yields as Influenced by Long-Term Tillage and Nitrogen Fertilizer Application</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**SDI Review Form 1.6**

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>Ethical Issue:</b> Yes. This study showed the effect of different tillage system, nitrogen rate and their effects on wheat and sorghum yield.	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments	The manuscript contains valuable data on wheat and grain sorghum yields as influenced by long-term tillage and nitrogen fertilizer application at Kansas State University Agricultural Research Center-Hays. The graph and table are presented adequately, with an adequate statistical treatment and an adequate description in the text. Clear conclusions are stated.	

**Reviewer Details:**
