

SDI Review Form 1.6

Journal Name:	<u>International Journal of Plant & Soil Science</u>
Manuscript Number:	2014_IJPSS_15921
Title of the Manuscript:	Effect of soil micronutrients (Zinc and Boron) on yield and uptake of wheat in an acid soil of West Bengal, India
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none"> 1. In Introduction objectives should be rewrite as per Journal, not like a thesis. 2. The materials and methods should be rewrite properly. 	
<u>Minor</u> REVISION comments	All the corrections made in the manuscript (highlighted by colour) should be incorporated.	
<u>Optional/General</u> comments	The manuscript highlighted the micronutrient (zinc and boron) status of acid soil of West Bengal. Due to deficiency of these nutrient wheat growth and yield is adversely affected in India. The authors tried to asses and solve this problem by applying required amount of these nutrients for improving production in the regions with acid soils.
