

Reviewer Comment:

Kindly write to authors for again checking Fig. 2a & Fig. 2b. Temperature in short term should temp. and degree cent-regrade should write correctly. In all figures, authors should follow same style for temperature legend in Y primary axis or Y secondary axis. In some figures they showed temperature legend in Y primary axis and in some figures Y secondary axis. Some figures they did not show any temperature legend. Figure 1, Figure 2a, 2b should same style: Fig.1, 2a, 2b or Figure 1, Figure 2a, 2b.
