

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	2014_IJPSS_15921
Title of the Manuscript:	Effect of soil micronutrients (Zinc and Boron) on yield and uptake of wheat in an acid soil of West Bengal, India
Type of the Article	Original research article

PART 2:

FINAL EVALUATOR'S comments on revised paper	Authors' response to final evaluator's comments
The authors reflected satisfactorily the entire reviewer's comments. However, some minor revisions are still required: 1) the decimal digits in the tables are questionable. The some number if digits is better for formatting but not for the data itself. If you have for example thousands, the data cannot be measured with precision to two or more decimal digits. 2) line 111: Sulphate still remains with capital letter here. Similarly, check lines 165-166. In the opposite, Grain weight in the headings of Table 3 should be with capitals.
