SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Not specific	
<u>Minor</u> REVISION comments	Family names and other ranks above genus should not be italicized. A lot of typo errors are identified For examples Introductions Line 15: bacterial disease → bacterial diseases Line 24: Mittes → mites Line 28: Coxiella burnetti → Coxiella burnetii Line 32: dengue → dengue fever Line 50: transicional group → transitional group Line 69: R japonica → R. japonica salmonella	All minor corrections of the referee have been addressed, in conjunction with the comments from other referees, to improve the quality of the manuscript.
<u>Optional/General</u> comments	Rickettsioses <i>lato sensu</i> Why did you italicize lato sensu? Why not sensu lato?	We have now changed to sensu lato, in accordance with this and another referee's suggestion.
